***Withdraw of Indication of Allowance***

1. The indicated allowability subject matter in the first action of claims 1-6 & 73-78 are withdrawn in view of the newly discovered reference(s) to Lee & Riley. Rejections based on the newly cited reference(s) follow.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1-4 & 73-76 are rejected under 35 U.S.C. 102(b) as being anticipated by Lee (6459903).

With regard to claim 1 & 73, Lee discloses:

- Calculating a hyperbola (reception TDOA of base stations) and circles (RTP time between bases and terminal device) to determine two intersection points (see column 4, lines 5-46).
- Specifying a communication sector of at least one of the two radio station to determine the candidate point included in the communication sector of the two candidate points as the geographical location of the terminal device (see column 5, lines 4-20).

With regard to claim 2-3 & 74-75, Lee discloses measuring the propagation time of the radio signals between the radio station and the radio terminal in the step of finding two candidate points (see column 3-4, lines 64-3). Measuring a hyperbola which

determining a difference of distances from the two radio stations (see column 5, lines 4-63).

With regard to claim 4 & 76, Lee teaches that a mobile communication network comprises a radio terminal and at least two base stations (see column 3, lines 55-63).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 5-6 & 77-78 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lee as applied to claim 1 above, and further in view of Riley (7446706).

With regard to claim 5-6, Riley teaches the radio terminal has a function to receive a signal from a GPS signal, and radio stations being the GPS satellites (see column 5-6, lines 61-50).

It would have been obvious to modify Lee by incorporating the teaching of Riley's system receiving GPS signals so as the system performs position information of the terminal device more consistency.

***Response to Amendment***

4. Applicant's arguments with respect to claims 1- 6 & 73-78 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment (on 3/3/2009) necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See

MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
